SUPPLY AND INSTALLATION OF AN ICT DATA SECURITY SYSTEM

Center for Health, Human rights and Development (CEHURD) is a research and advocacy organization pioneering the justiciability of the right to health in Uganda, East Africa and the Global South. We envision a society in which social justice and human rights in health systems is realized and our mission is to advance health rights for vulnerable communities through an integrated program of litigation, advocacy and action research.

As part of strengthening our internal systems, CEHURD is seeking for services of an ICT consultant / consulting firm to support the following pices of work;

1. Supply and install, onsite and offsite automated data backup systems. The system should be able to support a capacity of more than 100 users and have Specialized data backup software.

2. Supply of Microsoft window 10 professional 2019 and Microsoft office suite 2019 licenses for 70 users.

3. Supply of Next generation firewall Hardware, that can manage Internal and external security risks Cloud computing.

Application procedure

Interested individual consultants / consulting firms must submit the following documents/information to demonstrate their suitability for the assignment to: **info@cehurd.org**.

- Profile for the firm demonstrating its capacity to undertake this assignment.
- Up-to-date Curricula Vitae (CV) for each of the expert(s) proposed to work on this assignment including 3 (three) references.
- Technical Proposal presenting methodology of work and approach.
- Financial proposal for the assignment.
- At least three completed related projects (use links to these projects where applicable).

Deadline for submission is **Monday 9th November, 2020.**
